

Certificate of Analysis

Product: Canine Red Blood Cells

Description: A unit of red blood cells that have been washed and resuspended in an alsevers solution. Washed Red Cells are free of almost all traces of plasma. The red blood cells are pooled together and packed into multiple suspensions.

Expiration: Animal whole blood can be stable for up to 28 days after draw. Whole blood should be stored at 2-8° until it is to be used. We recommend if possible to gently agitate the product when it is not being used.

Storage: 2-8°

This material is intended for research use or for further manufacture of in-vitro diagnostic products licensed under Sec. 351 of the PHS Act. User agrees to indemnify and hold Innovative Research harmless for any use of this product other than that specifically stated.

CAUTION TO USERS: The values expressed in the attached Certificate of Analysis represent best efforts to provide accurate and reproducible data about the material. However, test methods and techniques for biologicals may produce variable results.
