Mouse Monoclonal anti-human IgG1 Fc

ORDERING INFORMATION

Catalog No: hAP-0040
Size: 100 µg
Storage: < -20° C
Immunogen: Recombinant Human IgG Fc domain
Ig Type: mouse IgG1
Clone: MM0040-43D17
Applications: Western blot and ELISA

Preparation: This antibody was produced from a hybridoma (mouse myeloma fused with spleen cells from a mouse immunized with purified recombinant human IgG1 Fc domain.

Formulation and Storage: The IgG fraction of culture supernatant was purified by Protein G affinity chromatography and lyophilized from a 0.2 µm filtered solution in phosphate-buffered saline (PBS). Lyophilized samples are stable for 2 years from date of receipt when stored at -70°C.

Reconstitution: Reconstitute the antibody with 500 µl sterile PBS and the final concentration is 200µg/ml. Reconstituted antibody can also be aliquoted and stored frozen at < -20 for at least for six months without detectable loss of activity. **Avoid repeated freeze-thaw cycles.**

Specificity: This antibody recognizes human IgG1 Fc domain in western blot and Elisa.

Applications:

- | | | |
|----------------------|-----|---------------|
| 1. Western blotting: | Yes | (1:100-500) |
| 2. ELISA: | Yes | (1:1000-2000) |

Final dilutions should be optimized by the end users and the dilutions provided in the data sheet are for reference only.
