## Mouse anti-human CD8 $\alpha$

### ORDERING INFORMATION

<b>Catalog No:</b>	<b>hAP-0178</b>
<b>Size:</b>	<b>100 <math>\mu</math>g</b>
<b>Storage:</b>	<b>&lt; -20<math>^{\circ}</math> C</b>
<b>Immunogen:</b>	<b>Human recombinant CD8<math>\alpha</math> extracellular domain</b>
<b>Ig Type:</b>	<b>mouse IgG2</b>
<b>Clone:</b>	<b>MM0178-3C39</b>
<b>Applications:</b>	<b>FC</b>

**Preparation:** This antibody was produced from a hybridoma (mouse myeloma fused with spleen cells from a mouse immunized with **human recombinant protein of CD8 $\alpha$  extracellular domain**).

**Formulation and Storage:** The IgG fraction of culture supernatant was purified by Protein G affinity chromatography and lyophilized from a 0.2  $\mu$ m filtered solution in phosphate-buffered saline (PBS). Lyophilized samples are stable for 2 years from date of receipt when stored at -70 $^{\circ}$ C.

**Reconstitution:** Reconstitute the antibody with 200  $\mu$ l sterile PBS and the final concentration is 500 $\mu$ g/ml. Reconstituted antibody can also be aliquoted and stored frozen at < -20 for at least for six months without detectable loss of activity. **Avoid repeated freeze-thaw cycles.**

**Specificity:** This antibody was selected for its ability to detect human CD8 $\alpha$ .

### *Applications:*

1. FC Yes (1:50-100)

**Final dilutions should be optimized by the end users and the dilutions provided in the data sheet are for reference only**
