# Mouse anti-human ciliary neurotrophic factor receptor alpha (CNTF)

## ORDERING INFORMATION

<b>Catalog No:</b>	<b>hAP-0189</b>
<b>Size:</b>	<b>100 µg</b>
<b>Storage:</b>	<b>&lt; -20° C</b>
<b>Immunogen:</b>	<b>Human recombinant CNTF</b>
<b>Ig Type:</b>	<b>mouse IgG2</b>
<b>Clone:</b>	<b>MM0189-8D23</b>
<b>Applications:</b>	<b>WB and Neutralization</b>

**Preparation:** This antibody was produced from a hybridoma (mouse myeloma fused with spleen cells from a mouse immunized with **human recombinant protein of CNTF**).

**Formulation and Storage:** The IgG fraction of culture supernatant was purified by Protein G affinity chromatography and lyophilized from a 0.2 µm filtered solution in phosphate-buffered saline (PBS). Lyophilized samples are stable for 2 years from date of receipt when stored at -70°C.

**Reconstitution:** Reconstitute the antibody with 200 µl sterile PBS and the final concentration is 500µg/ml. Reconstituted antibody can also be aliquoted and stored frozen at < -20 for at least for six months without detectable loss of activity. **Avoid repeated freeze-thaw cycles.**

**Specificity:** This antibody was selected for its ability to detect human **CNTF**.

### **Applications:**

- |  |            |                     |
|--|------------|---------------------|
| <b>1. WB</b>                                 | <b>Yes</b> | <b>(1:500-1000)</b> |
| <b>2. Neutralization of CNTF bioactivity</b> | <b>Yes</b> |                     |

**Final dilutions should be optimized by the end users and the dilutions provided in the data sheet are for reference only**
