Mouse anti-human Lymphotoxin

ORDERING INFORMATION

Catalog No:	hAP-0460
Size:	100 µg
Storage:	< -20° C
Immunogen:	Human recombinant Lymphotoxin α/β
Ig Type:	mouse IgG1
Clone:	MM0460-12B4
Applications:	Neutralization

Preparation: This antibody was produced from a hybridoma (mouse myeloma fused with spleen cells from a mouse immunized with **human recombinant protein of Lymphotoxin α/β**).

Formulation and Storage: The IgG fraction of culture supernatant was purified by Protein G affinity chromatography and lyophilized from a 0.2 µm filtered solution in phosphate-buffered saline (PBS). Lyophilized samples are stable for 2 years from date of receipt when stored at -70°C.

Reconstitution: Reconstitute the antibody with 200 µl sterile PBS and the final concentration is 500µg/ml. Reconstituted antibody can also be aliquoted and stored frozen at < -20 for at least for six months without detectable loss of activity. **Avoid repeated freeze-thaw cycles.**

Specificity: This antibody was selected for its ability to specifically detect human Lymphotoxin.

Applications:

- | | |
|---|------------|
| 1. Neutralization of lymphotoxin α/β bioactivity | Yes |
|---|------------|

Final dilutions should be optimized by the end users and the dilutions provided in the data sheet are for reference only
