## Rat monoclonal anti mouse insulin-like growth factor binding protein 3 (IGFBP-3)

### ORDERING INFORMATION

**Catalog Number:** mAP-0096  
**Size:** 100 µg  
**Storage:** < -20° C  
**Immunogen:** Mouse recombinant protein of IGFBP-3  
**Ig Type:** Rat IgG2  
**Clone:** RM0096-11B16  
**Applications:** WB

**Preparation:** This antibody was produced from a hybridoma (mouse myeloma fused with spleen cells from a rat immunized with mouse **recombinant protein of IGFBP-3**).

**Formulation and Storage:** The IgG fraction of culture supernatant was purified by Protein A/G affinity chromatography and lyophilized from a 0.2 µm filtered solution in phosphate-buffered saline (PBS). Lyophilized samples are stable for 2 years from date of receipt when stored at -70°C.

**Reconstitution:** Reconstitute the antibody with 200 µl sterile PBS (final concentration 500µg/ml). Reconstituted antibody can be aliquoted and stored frozen at < -20 for at least for six months without detectable loss of activity. **Avoid repeated freeze-thaw cycles.**

**Specificity:** This antibody detects mouse **IGFBP-3** in Western blotting. No cross activity to other mouse IGFBPs.

### Application(s)

1. Western blotting	Yes (Non-reducing samples)	(1:500-1000)
---------------------	-------------------------------	--------------

The listed dilutions are for recommendation only and the final conditions should be optimized by the ender users!
