Rat monoclonal anti mouse Triggering Receptor Expressed on Myeloid Cells 1 (TREM-1)

ORDERING INFORMATION

Catalog Number:	mAP-0138
Size:	100 µg
Storage:	< -20° C
Immunogen:	Mouse recombinant protein of the extracellular domain of TREM-1
Ig Type:	Rat IgG2
Clone	RM0138-3C66
Applications:	WB and IHC

Preparation: This antibody was produced from a hybridoma (mouse myeloma fused with spleen cells from a rat immunized with mouse **recombinant protein of the EC-domain of TREM-1**).

Formulation and Storage: The IgG fraction of culture supernatant was purified by Protein A/G affinity chromatography and lyophilized from a 0.2 µm filtered solution in phosphate-buffered saline (PBS). Lyophilized samples are stable for 2 years from date of receipt when stored at -70°C.

Reconstitution: Reconstitute the antibody with 200 µl sterile PBS (final concentration 500µg/ml). Reconstituted antibody can be aliquoted and stored frozen at < -20 for at least for six months without detectable loss of activity. **Avoid repeated freeze-thaw cycles.**

Specificity: This antibody detects mouse of **TREM-1, but not TREM-2b** in Western blotting.

Application(s)

1. Western blotting	Yes	(1:500-1000)
2. IHC (Frozen)	Yes	(1:50-100)

The listed dilutions are for recommendation only and the final conditions should be optimized by the ender users!
