Rat monoclonal anti-mouse TNFRSF13C

ORDERING INFORMATION

Catalog No: mAP-0249
Size: 100 µg
Storage: <-20°C
Immunogen: Mouse recombinant protein TNFRSF13C
Ig Type: Rat IgG2
Clone: RM0249-7J21
Applications: FC & ELISA

Preparation: This antibody was produced from a hybridoma (mouse myeloma fused with spleen cells from a rat immunized with mouse **recombinant protein TNFRSF13C**).

Formulation and Storage: The IgG fraction of culture supernatant was purified by Protein G affinity chromatography and lyophilized from a 0.2 µm filtered solution in phosphate-buffered saline (PBS). Lyophilized samples are stable for 2 years from date of receipt when stored at -70°C.

Reconstitution: Reconstitute the antibody with 500µl sterile PBS and the final concentration is 200µg/ml. Reconstituted antibody can also be aliquoted and stored frozen at <-20° for at least for six months without detectable loss of activity. **Avoid repeated freeze-thaw cycles.**

Specificity: This antibody recognizes mouse TNFRSF13C by ELISA. Cross reactivity to other species has not been tested!

Applications:

1.	ELISA	Yes	1:1000-2000
2.	FC	Yes	1:10-20

For Research Use Only

Final dilutions should be optimized by the end users and the dilutions provided in the data sheet are for reference only
