

## Rabbit anti Androgen Receptor (pSer213)

- Catalog Number:** pAP11119  
**Amount:** 100µl (for 10 Western Blotting)  
**Swiss-Prot No. :** P10275  
**Form of Antibody:** Rabbit IgG in phosphate buffered saline (without Mg<sup>2+</sup> and Ca<sup>2+</sup>), pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol.  
**Storage/Stability:** Store at -20°C/1 year  
**Immunogen:** The antiserum was produced against synthesized phosphopeptide derived from human Androgen Receptor around the phosphorylation site of serine 213 (E-A-S<sup>P</sup>-G-A).  
**Purification:** The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific phosphopeptide. The antibody against non-phosphopeptide was removed by chromatography using non-phosphopeptide corresponding to the phosphorylation site.  
**Specificity/Sensitivity:** Androgen Receptor (phospho-Ser213) antibody detects endogenous levels of Androgen Receptor only when phosphorylated at serine 213.  
**Reactivity:** Human  
**Applications:** WB:1000
